LOWDEN AND WOOD CAMPAIGN FUNDS TRACED IN SENATE INQUIRY, OHIO EDITOR IS QUESTIONED

Investigation of Preconvention Presidential Expenditures Turns Back to Contests in Individual States.

(By Associated Press)
Washington, June 1.—Senate investigation of preconvention presidential campaign expenditures turned back today to contests in the individual states with Robert F. Wolfe, publisher of the Columbus, Ohio, Dispatch and Ohio State Journal, telling of the Wood-Harding fight in that state and other witnesses.

Arthur Z. Davis, Harrisburg, Ill., presented to the committee nine checks which he said were sent by Governor Lowden's campaign manager to representatives of that campaign in Missouri. They totaled \$38,703.

Six of the checks for \$32,203 went to E. L. Morse, Kansas City, Mr. Davis testified. The other three, he said, were sent out January 1, 1900 to Fred Eissen, St. Louis; \$2,500 to Robert Moore, St. Louis; and \$2,500 to Nat Goldstein, St. Louis.

No Need for Money.
Robert Moore, one of the men testified he told L. E. Emerson, secretary of state for Illinois and national campaign manager for Governor Lowden, that "there wasn't any need for money for Governor Lowden in Missouri."

"Well, you took the money. What did you intend to do with it?" asked Senator Spencer, republican, Missouri.

"I have it now," Mr. Moore replied. "I intended to use it in the election in case Gov. Lowden was nominated. My present intention is to return it forthwith."

"This intention has been reached since we received all this unpleasant publicity."

Hearings Are Halted.
Efforts were being made to expedite the hearing so that Thursday night might be called Thursday night to permit the committee to go to Chicago for the republican convention. The investigation will be continued after the republican convention and before the democratic convention on June 28 at San Francisco, under present plans.

Published by the publisher of the Columbus, Ohio, Dispatch, testified that his papers "had taken an active part" in the recent Ohio republican primary between Major General Wood and Senator Harding of that state.

Opposed Inside Coterie.
"Politics in our state," he said, "are in the hands of an inside coterie which I have felt it a duty to oppose. I was not a supporter of Senator Harding but told him that I could not do so in his candidacy."

Senator Wolfe produced a full newspaper sheet of advertisement matter which was carried as an insert in about 40 Ohio newspapers, he said, "containing a personal attack on Harding," for not supporting "Harding."

Each Side Spent \$100,000.
"My estimate is that each in Ohio Wood and Harding made about that cost and \$100,000," he added, "for the advertisements."

Senator Edger, republican, New Jersey, testified to spending "about \$35,000 in the Ohio campaign," and asked for Mr. Wolfe's answer. He testified in addition to what legislative influence and local machinery they had. It would cost an outside campaign.

Irish Women Give Senate Merry Time

(By Associated Press.)
Washington, June 1.—The United States senate was heckled from the galleries today by a dozen women sympathizers with the cause of Irish freedom.

The women began their volley when Senator Brandegee, republican, Connecticut, speaking against the Armenian mandate, made a passing reference to the "ravishes of the Hun."

"Why not eject the English Hun from Ireland?" shouted the first interjector.

"Usher Pounced Upon Her." "Didn't give my boy to—," began another woman but an usher pounced upon her before she finished the sentence.

Under sharp orders from Vice President Marshall the ushers had put out a half dozen of the disturbers and restored order when the questioning suddenly broke out afresh.

"Why don't you get them out," asked the vice president. "Haven't you enough nerve to remove them?"

"You haven't enough nerve to go against England, not any of you," replied one of the women as she completed a hasty exit under escort of an usher.

Two women later gained admittance to the floor of the house and standing in the middle aisle shouted an appeal for Ireland. Both were hurried to the corridors, members assisting the doorkeeper.

Simultaneously five other women sprang up in the gallery, challenging members to deny their appeal for Irish sympathy. Their cries were answered by cheers and hisses.

Representative Blanton, democrat, Texas, asked that the galleries be closed and that the sergeant at arms take the women in custody.

"You can't do that, the whole crowd can't do that," one of the women shouted.

Doorkeepers attempted to take the women out. They ran around the galleries and it was several minutes before they were finally ejected.

Service Men Will Rally for Fun at Armory, Tonight

It isn't so long ago that many of the young men of Janesville were wearing khaki and waiting for the word to make them civilians once more. During those days "kiddies" in camps and cantonments many novelties were provided in the form of entertainment that "drew the crowd."

A brief meeting was held last night, reading of the minutes being introduced before adjournment tonight. This was done because yesterday was a legal holiday.

A discussion may arise as to the rate of interest to be paid on the bonds, although councilmen are said to generally agree that the rate of interest should be 4 percent.

A full discussion of the auto parking ordinance introduced before the council is also predicted with a possibility of the council taking final action. Many reports of the various city offices will be received.

NEW BLOW STRUCK IN SPEEDING WAR

Three Fast Fines for Hitting Past Gait on Main Thoroughfares.

A decisive blow in Janesville's war against speeding was struck today when Judge Maxwell fined three after they had admitted traveling at a rate above 15 miles per hour. They were: William Alderman, George Ward and Henry Casey.

Alderman's fast ride cost him \$10 and costs while the other two were released after turning over \$17.40 apiece.

The three victims of the first week-end drive of Maxwell, George Tom King on his new Henderson machine which was finally made ready for action Thursday with the addition of a speedometer. He promised more arrests.

Two Have Attorneys
Alderman admitted traveling 25 miles an hour on the last block of Milton avenue while Casey said "this afternoon I did not know my motor was going so fast."

Ward was arrested near the business portion of the city—on South Main street south of Racine. Ward was declared to have been going too fast on his motorcycle on Washington street. Alderman was represented by Henry Carpenter; Casey, by William Morrissey and counselmen are determined to stamp out an epidemic of fast driving which seems to have gripped the city.

It is hoped to put a stop to the practice of making speedways out of several streets, especially Milton avenue, which is in Los Angeles and she in Kansas City.

MORE ON MERGER OF PHONE LINES

Hearing on Petition of the Rock County Up Next Week—Manager Cash on Phone

While there is no present likelihood of serious opposition to the petition of the Rock County telephone company for an increase in the rate of the telephone service, the subject of the petition is being discussed by the Bell and the Rock County telephone companies. The two companies have failed and the statement that it could not be done without much legal trouble is being made by the attorney for the Bell company. It is stated, it is stated, that the attorney general of the United States is making the statements made by the M. P. Richardson concerning the petition of the Rock County telephone company. The local manager of the Wisconsin Bell Telephone company says:

"It is an error to say that the Wisconsin Bell Telephone company cannot buy another company. We can buy any company with the approval of the Attorney General of the United States. This need not be further evidence than the fact that we have recently purchased the telephone company in Ashland and Washburn, Wisconsin."

The Wisconsin Company's record is clear with reference to consolidation, as anybody can learn by consulting the Wisconsin Railroad Commission. We Wisconsin public good-will as a large factor in the conduct of our business. From a purely selfish standpoint, we would not want to see any stockholders in any company which we had an interest, for the good-will is of value to our business, because they are all business men and we expect to do business with them in the future.

It is the prevailing custom in business that when two concerns are consolidated, the concern having the larger property leaves the larger holdings in the consolidated company. In Janesville, as in all other cases of consolidation, from a business standpoint, the Wisconsin company should agree in advance to take the minority stock in a consolidated company, if when the inventory is made of both properties, the Wisconsin property inventories at a higher value than the Rock County Company.

The Wisconsin Company was first in the field at Janesville and the Rock County Company came in as its competitor. The people of Janesville would be foolish to pay \$5.00 per month for a single line business of the Wisconsin Company and then pay \$5.00 more for a single line of the Rock County Company, making a total of \$10.00 for telephone service for a single line of each company, month, when it would be possible, with one company, to have a lower rate and unified service.

We do not intend to have any extended controversy on this matter but some of the statements of the Rock County Company, (who have not been authorized to speak for us), could not be let go uncontradicted. We believe the people of Janesville are interested in having the most efficient and economical service possible. This is feasible only with one company. State regulation guarantees fair treatment to all."

News Notes From Movieland

BY DAISY DEAN

Oh, Agnes, shame on you! You with your very legal, practical mind, a devotee of the mystic "Weegee." It is simply impossible to believe. And what, pray tell, may you be asking the spirits? Do you want to know who you were before you appeared on earth as Agnes Ayres? Or do you want to know whether you made a mistake by giving up the study of the law for the screen? (We are sure that was no mistake and if "Weegee" said you did, don't you ever believe it.) Perhaps you want to know what your next picture is to be or whether you should buy the stock you saw yesterday. Here's something we are going to ask it next time just for the sake of all our questioning fans. "Is Agnes Ayres married, Weegee? Be a nice Weegee and tell us who he is?"

All joking aside, however, we did think Agnes was such a nice, sensible girl and here she is conversing with Weegee just like all of the rest of the foolish folk. Well, maybe she has to do it in a picture, so we shall forgive her this time.

Safety bulletin No. 53 is the latest Northwestern publication on accident prevention. It is complete with apt diagrams showing and calling attention to the need of Safety First.

Remember that it takes less time to prevent an accident than it does to report one.

Better to cause a delay than to cause an accident. Stop the little accidents and you will wipe out the accident business.

A number of local "falls" are being moaning the money they invested with a Chicago broker in an Illinois clay hole. Some paid as high as \$500, it is said. The clay, which was to be manufactured into brick, tile, and such building material, proved to be anything but "pay dirt" and Wednesday the local stockholders were

informed that their company was bankrupt.

Three-hour service between Madison and Milwaukee, affecting three trains, was instituted May 30 by the Northwestern road, in response to appeals by the Madison Association of Commerce and others for a two-hour service.

Frankfort—Women of Kentucky have been assured of the right to vote for presidential electors in the coming presidential election, independent of the ratification of the federal suffrage amendment of the requisite number of states. This opinion was given by George G. Spear, state banking commissioner, by Atty. Gen. Charles J. Dawson, who holds that an act of the Kentucky legislature passed this year, to provide for woman suffrage in presidential elec-

tions, is valid and that under its provisions women may participate in the presidential election.

The attorney general said he could find nothing in the bill which would conflict with the constitution of the state of Kentucky or of the United States.

Cargo Ships From Manila Have Holds Almost Empty

Manila—Cargo ships are leaving Manila frequently with their holds

practically empty, shipping agents say, because of adverse market conditions in the United States. The low price of hemp and coconut oil, two of the leading articles of export from the Philippines, is one of the principal factors in causing the surplus of cargo space, shippers assert. Because of the large stocks of these products accumulated during the war, both here and in the United States, a surplus has been created and it is said they may now be purchased at a lower price in the United States than in the Philippines.

BILLION PAID IN LUXURY TAXES

Penny Fees Mount Up in Computing Cost of Spending.

New York.—Luxury buying in New York is now going on at the rate of \$1,200,000,000 a year judged by the amount of luxury taxes—aggregating \$10,600,000 a month—which are being collected by William E. Edwards, United States collector of internal revenue for Manhattan. In February, the collector, the government received from his office \$2,000,000 more in luxury taxes than was paid in any previous month in the history of the department. The month of April probably will exceed them all. The receipts he says, have been mounting higher and higher for six months.

Peak Is Reached
"What some people call the 'orgy of spending' has not exhausted itself," said Mr. Edwards, "but my men, in their talks with merchants and others who pay the great bulk of the taxes, have been told that the peak of extravagance seems to have been reached and that a period of retrenchment is close at hand."

"We hear a lot about the 'orgy of spending' which is going on in the spring of every year and about the hardships of meeting it, but the fact is that the steady state of affairs which is being felt by the public and of which we hear very little, is the luxury impost. The poorer class who buys a pair of shoes or a soda water bottle at the penny or two tax any more than does the rich youth who presents his fiancée with a diamond tiara."

During the year, the collector has found that the item is so small as compared with the expenditure.
Ransom Spent for Candy.
"A king's ransom was spent for candy last December but the biggest revenue came from dealers in jewelry, furs and automobiles. The collector showed that in January they did an unusually prosperous business. When person start to economize they usually cut out amusements, but in January, the amount of Manhattan alone, \$733,391.43 was paid in taxes. Multiply that by 10 and you will get some idea of how much the collector has collected and his guests are paying to be entertained at just the theaters. There are no indications of any panic in these figures."

Big Tax Comes in Pennies
"An interesting thing about the luxury tax is that more revenue is being derived from ice cream sodas and other small sales which carry a penny or two of tax than there is from the sale of motor cars, diamonds and other luxuries. Drug stores paid a large sum on expensive perfumes and cosmetics. The manufacturer, producer or importer, is required to make such returns as will clearly show each taxable item and in the sale of certain goods and these are verified by revenue officers. Section 904 of the Revenue Act of 1918 provides that 'on and after May 1, 1919 the tax of 10 percent shall be levied and collected on luxuries, including many kinds of expensive articles, in daily use. In the sale of these articles the dealer acts as a collection agent for the government. Other taxes are paid in the form of stamps."

Income Tax
"One of the reasons for the falling off in the receipts of income and excess profit taxes this year was the deduction which the taxpayer may make for sums which he paid to the government for luxury, proprietary and other taxes. Here is an illustration: Let us say that a man takes his wife to the theater twice a week. He pays \$6 each time he goes for two tickets. The tax on each ticket is 30 cents. On four tickets a week he pays \$1.20 and in one year \$62.40. He is privileged to deduct that from his net income before computing his income tax. There have been comparatively few attempts at evasion. In fact, the amount received by this office in luxury and other taxes is a monument to the honesty of the majority of the people of this great city."

The Diary of an Engaged Girl

LINDSEY LIVES THE CAVEMAN

My dearest, beloved was with me all this evening. And I was so glad to see him again. He looked particularly clean-cut and well-to-do. I thought for some reason or other. Maybe it was because I was in one of my most receptive moods. But it was such a perfect June twilight when he arrived and the odor of the roses he had sent me were all through the house. I felt fluttery, and very much engaged and drifted, and unsettled about the feet and heart, so to speak. Jack got it, the minute he saw me.

He had on a shimmering green silk frock, which suits me wonderfully, and Jack told me I looked like a Lorelei. I reminded him that same did not exist in polite society, anything more. To be sure, the government had not as yet hit upon an American name for the German water spider, so he had better just stick to the Lorelei. I love to feel that I please my boy in every way. I love to have him fasten his blue eyes on my arms, and then bend over and kiss me. It tells my heart just how much he cares for me and wants me, all of me. He kissed me on the throat, in a way all his own, and had finished adoring me. Kissed me until I couldn't breathe scarcely. I loved it. Verily a maiden is a strange creature. I should have liked to be better than for Jack to have suddenly picked me up, dashed down the steps with me, and eloped. This was my mood all evening. I had ached for the great adventure. It would have been infinitely wonderful to have him kidnap me, carry me off to make me his, in his own way. I do believe me. I'd have raised no objections—no, stroke. Somehow or other

the idea of a formal church wedding does not appeal to little Lindsey at all. It's all so cut and dried. I would like it to be as it was in the beginning. But nowadays seem to have lost all their aggressiveness, where women are concerned. I want to be wooed, roughly, yet tenderly. I want to have the man who loves me want me so badly that he cannot bear to be a mere fiancee another minute, and with a groan of delight and desire, dash me up to his manly bosom, dash off with me to his lair, wherever that may be, and hold me there till he can reach the telephone and procure a minister. (Telephone is slightly out of the picture, I'll say.) Thus only can a maiden feel wooed and wanted. And just think of the wild thrills that are hers as she feels herself held close, and helpless! Why, there's nothing to this formal marriage ceremony at all to my way of thinking!

Once or twice I caught a gleam in Jack's eye that hinted that he was in a ferocious mood himself, but he was all control, that boy, bless his heart. He did turn on the violins, however, and dance with me till I nearly fainted. We danced and danced, and Jack called to our tubular souls just as we were, conversing and breathing heavily from our arduous exertions. But he hurried me after casting a melancholy glance in my direction.

At about 10 o'clock the glint of the moon shone down on our tubular souls. So off we went. He drove like one possessed for an hour, and then we stopped at the roadside. "Nuff said, but I do love my Man terribly." (To be continued)

Senoritas Are Interested in Exposition of Fans
Madrid—Spanish cities are intensely interested in an exposition of fans to be held here this month. More than 400 beautiful specimens showing the development of fan making in the last three centuries have been entered in the exposition. Queen Victoria was among the first to offer her support for the exposition and to participate in it. Others of the royal house, including the Queen Mother, the Infantes Isabel and Maria, the Duchess of Talavera and nearly every titled woman in Spain followed her example.

Heart and Home Problems

By ELIZABETH THOMPSON

Letters May be Addressed to Mrs. Thompson, in Care of the Gazette

Dear Mrs. Thompson: I am in a frightful mess. About three months ago I met the prettiest girl I have ever seen and fell in love with her. We saw each other often after that. One evening we were invited to a party for dinner and during the dinner our hostess asked about her mother. She said the most unkind things I have ever heard, a girl said her own mother. She called her unreasonable and set as a rule. Perhaps she told the truth, but even so I did not like her so much after saying that. My own mother has always been so wonderful to me that I hurt me more than I let the girl know.

After that I wasn't quite so interested and I became more critical. I noticed that she lacked sympathy entirely and was selfish and hard in her judgments.

Before she said that about her mother we had become engaged. We were still engaged, but I felt I wanted her under the circumstances. Do you think it would be fair to break the engagement? ORRIN.

It is my belief that it is better to break an engagement than to enter into a loveless marriage. I think you should ask the girl to release you.

Do you think I am unreasonable to object to this? YOUNG WIFE.

Oh, you are not unreasonable to object. Any woman would be annoyed and disappointed to have her husband prepared a good meal for him. Your husband would probably remember to telephone if he had not done so before. If he returned home late, his thoughtlessness is inexcusable.

Dear Mrs. Thompson: I am 33 years old and have been married 12 years. My husband is good to me and we care as much for each other as can be expected after 12 years. We have two little girls and he would do anything for them.

There is one thing about my husband I do not like. He won't smoke. He smokes a pipe. He looks and acts like an old fogey with it. I think.

One thing makes me especially angry. He goes to bed before I do and takes his pipe and newspaper and he smokes in bed. I have said to him many times, but he keeps it up anyway. What can I do?

TILLIE.

Why do you object to your husband's smoking in bed? If the smell of the tobacco keeps you from sleeping or if he burns holes in the bedding you have every reason to object.

If you are not annoyed by the smell of the tobacco and if he does not burn holes in the bedding, let him have the comfort of doing as he pleases. That time in bed with his paper and pipe probably contributes a great deal to his contentment. Let him enjoy himself unless you have some very good reason for objecting.

AUTOBIOGRAPHY—22

Teething

The two chief dangers for a baby surrounded by the gossip of the neighborhood are teething and colic. No matter what ails him, nor whether anything ails him, it is "teething." As any old woman will assure any mother so careless or gullible as to listen to her, if, perchance, it proves not to be "teething" after all, as it invariably does prove it the baby does not succumb to the old woman's treatment, then there is no doubt in the world it is "colic," and worse yet "wind colic"—though what other varieties of colic there may be in a baby's lexicon I cannot tell you, nor can my dad. "Why," the old woman declares, "it is as plain as the nose on your face"—and I repeat, the nose on your face is as plain as the nose on your face the best of the colic or teething, or can't you see him drawing up his legs? That shows his stomach hurts him. We babies do draw up our legs whenever we cry violently, and lots of times when we don't cry. It is one of the few ways we have to get a little exercise, don't you know, but my mother and most doctors, too, seem to think a baby needs no exercise at all, and they dress us accordingly. "It is a waste of your money," I was told, "to get the baby to store and get some colic, teeth and worm cure for that baby, so I would."

Thus it happens that many a poor little tike is started in on the mor-

QUESTIONS AND ANSWERS

Please print questions for rough copy. "Let state" or "let state" some time ago and it was unexcused. (Miss C.R.)

ANSWER—Salicylic acid 10 grains
Glycerin 10 grains
Lanolin 10 grains
Benzoinated jar, enough to make an ounce.

A very small quantity of this is to be rubbed upon the affected area (or skin) once a day.

How I wish I had had the opportunity of reading your health articles when I was raising my family. I feel that I could have done a much better job than I did. You write many things that I have heard of, but I have not had the opportunity to know. I am taking the Russell treatment and have not heard of the results. Thank you. (Mrs. W. R. T.)

ANSWER—Some grandmothers are younger than they pretend to be. Some young women are regular old grannies. For instance, some young women are afraid to eat salt, but they become weak or ill from insufficient nourishment.

New York—J. T. Morgan and company have announced a new loan to Belgium to liquidate a \$50,000,000 acceptance credit maturing in June.

The Strange Case of Cavendish

By RANDALL PARRISH
Author of "The Devil's Own,"
"My Lady of the North," Etc.

(Copyright, by Randall Parrish.)

"Instantly, I told the coroner all about it. Whether the fellow was I or not, he meant the shot for me, but poor Jose got it. Seen Bill Lacy this morning?"

The marshal's thin lips smiled grimly as he lifted his eyes to Westcott's face.

"He's back there in his office. That's what I stopped for. He said he was waiting for you."

"What's up between you and him, Jim? There ain't nothin' ter be no fight or nuthin' goin' on?"

"I don't see any use for any," he answered. "But Bill might be a bit touchy. Maybe, Dan, it might be worth while to see him around."

He turned away and went up the wooden steps to the door of the building. The fellow who followed him, however, did not follow him.

Westcott closed the door behind him and took a swift view of the barroom. There were not many present.

He noticed a few habitués lounging about the bar. He saw a man who looked like a lawyer, and a man who looked like a doctor.

"Back there," and the dispenser of drinks inclined his head toward a door at the rear. "Go on in."

The fellow's manner was civil enough, yet Westcott felt a faint uneasiness that he was about to face an emergency. Yet there was no one else there.

He stepped into the room beyond, and turned the key in the lock, dropping it into his pocket. He was not alone with him.

Man Loses Hundreds of Dollars

"I am sorry I did not hear of May's Wonderful Remedy a few years ago, as it would have saved me several hundred dollars."

Years ago I suffered from indigestion and severe bloating. I grew worse all the time. My doctor said an operation would be all that could save me.

I took a course of May's Wonderful Remedy instead and for the past year have been entirely well. It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. The Peoples Drug Co. and druggists everywhere. Advertisement.

35 STATES WILL ELECT GOVERNORS

(Illinois Executive Highest Paid in Nation, Nebraska Lowest.)

(BY ASSOCIATED PRESS.)

Chicago—Thirty-five states will elect governors next fall at the time when the president and vice president are chosen. Thirty-two United States senators, to take office March 4, 1921, also are to be selected.

Of the governors whose terms expire next year 22 are republicans and 13 democrats; while 17 of the 32 senators are democrats and 15 republicans.

Wide Range Offered
The 35 governorships to be filled offer a wide range, both in terms and salaries. Among the state executives whose terms expire are Frank O. Lowden, Illinois, the highest paid governor in the country, and S. R. McKelvie, Nebraska, the poorest paid. Mr. Lowden receives \$12,000 yearly for a four year term and Mr. McKelvie \$2,500 annually for two years. Only 12 of the 35 will receive over \$5,000 a year; and five will be paid \$2,000 or less.

Coolidge Elected for Year
Governor Coolidge, Massachusetts, whose position carries a \$10,000 salary, is the only governor in the country elected for one year. All the

other states have either two or four year terms. Territorial governors are better paid than the average state executives and two of the four are appointed for indefinite terms, with the result that many remain in office as long as a rule, as the president who named them.

\$20,000 in Philippines
Francis Burton Harrison, governor-general of the Philippines, tops the list of territorial executives with an indefinite term and a \$20,000 yearly salary. Arthur Yager, governor of Porto Rico, receives \$10,000 and is appointed for an indefinite term. Gov. Thomas Riggs, Jr., Alaska, and C. J. McCarthy, Hawaii, each received annual salaries of \$7,000 during their four year terms.

The states which will elect governors this year: Arizona, Arkansas, Colorado, Connecticut, Delaware, Florida, Georgia, Idaho, Illinois, Indiana, Iowa, Kansas, Maine, Massachusetts, Michigan, Minnesota, Missouri, Montana, Nebraska, New Hampshire, New Mexico, New York, North Carolina, North Dakota, Ohio, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Utah, Vermont, Washington, West Virginia, Wisconsin.

Rice Led All Louisiana Crops in Value in 1919
New Orleans—Rice led all Louisiana crops in value in 1919, according to the Board of Trade. Value of the 1919 rice crop was \$53,420,000. Cotton was second with a valuation of \$52,500,000, corn third, and sugar came fourth. The sugar crop was the shortest in many years, being little over half that of 1918.

The Biggest, the Boldest, the Most Important Step That Has Ever Been Taken in Janesville to Bring Down the Cost of Women's Wearing Apparel.

SALE STARTS WEDNESDAY, June 2, 9 A. M. Sharp

T. P. Burns Co. have always undersold—This business was built up to a large volume because we give the public more for their money than they could get elsewhere. Our policy from the very beginning has been to keep down prices and we have been the pioneers in that direction.

Thousands upon Thousands of people can and do remember that they have always obtained the best merchandise at the lowest prices at our sales—prices that were sometimes ridiculous. The public recognized that we were revolutionizing prices downward and it was not long before others followed our lead.

So now the whole nation is caught in the intolerable condition of excessive cost of living. T. P. Burns Co. again are the pioneers in the movement to bring prices to a lower level.

This is not "just a sale", it is an epoch making event that only T. P. Burns Co. would have courage to feature in face of present market conditions. It is not an easy thing to do, don't think that for a minute. We have not profited by abnormal market conditions. We are trying to lower prices instead of raising them, which has been the general tendency.

So please keep in your mind that we are making a serious sacrifice when we offer you unrestricted choice of any Coat or Suit in our store at fifty per cent less than regular prices. But it is up to us to stand whatever loss is involved.
